February 27th, 1943

UNIVERSITY OF TORONTO

BULLETIN

SATURDAY, FEBRUARY 27, 1943

The fact that this is the first Bulletin to appear during the present academic session calls for a word of explanation. Its lateness is due to the dearth of information reaching the Committee representing the Teaching Staff, which sponsors the Bulletin. As previous issues were generally welcomed, the Committee desires to resume publication, and it is hoped that this can be done at regular monthly intervals next session. The successful carrying out of such a proposal, however, depends on the degree to which Staff members co-operate in forwarding material for inclusion in the Bulletin. The Committee therefore earnestly requests Staff support in connection with future issues.
